

New here?

Let's get you sorted!

Emergency Area

- The Revo Fitness App is free to download and gets you into every Revo Fitness club, plus 24/7 access at select locations
- Some clubs have multiple entry and exit points for safety purposes
- Your access is linked to your membership only. It's not something you can share or pass on. Letting a non-member in isn't allowed under your Membership Agreement

Floor Plan

- Every club's a little different, and layouts can change over time as we bring in new gear or rework the space
- Use your gym's floor plan to find the female, male, and universal access change rooms
- Cleaning stations vary by location too, so check your club's setup

Emergency Exits, Gym Layout & Amenities

- The front door is your main way in and out, and it doubles as an emergency exit whether the club's staffed or not
- Keep an eye out for the emergency diagrams around your club. They'll show you the other exits and where to find fire extinguishers

Safety

- Most of our equipment comes with safety instructions so please give them a read before you jump on
- Not sure how something works? Just ask our staff and they'll help you out or point you to a personal trainer

Staffed Areas

- Staffed hours vary by location, so check the Revo Fitness website for your club's details

Emergency Area

- Every club has an emergency area. Please get familiar with where it is and what's in it before you start training
- You'll find emergency pendants and panic buttons (these alert security), an emergency phone straight to security, a first aid kit, and a defibrillator
- If something happens: stay calm, listen to our staff, and make your way out in an orderly way

Disclaimer

We'd really encourage new members to book in with a trainer for your first session. Training at Revo Fitness is at your own risk. Got questions? Chat to our team at reception during staffed hours, or check the Terms and Conditions for more detail.
